# CALEFFI Training

Hydronic Solutions

Tuesday, September 18<sup>th</sup>

8:30 am – 11:30 am

Lyall, Thresher Training Facility

1101 Tonne Rd.

Elk Grove Village, IL

### AGENDA

- Review of hydronic applications
- Primary-secondary piping
- Key components in hydronic systems
- Water quality in hydronic systems
- Air and dirt separation
- Utilizing thermal storage to decrease short cycling
- Antifreeze impact on performance and components

### Instructor

Bob "Hot Rod" Rohr, Caleffi National Trainer, has been a plumbing, radiant heat and solar contractor for over 30 years. He is also a longtime member of the Radiant Panel Association and a columnist for Plumbing-Heating-Cooling News. Bob's latest position as Caleffi's manager of training and education is allowing him to showcase Caleffi's innovation hydronic solutions.
